

ECM2007 is organized by the Greek Section of the Combustion Institute under the auspices of the Federation of the European Sections of the Combustion Institute.

The meeting aims to provide a forum for the presentation and discussion of current research activities in the field of combustion. The meeting also aims to promote European co-operation in combustion research and development and to disseminate the activities of the European combustion community to a wide audience. Combustion scientists and engineers are invited to attend and participate in ECM2007.

FIRST ANNOUNCEMENT
OF THE
THIRD EUROPEAN COMBUSTION MEETING
ECM 2007

MEDITERRANEAN AGRONOMIC INSTITUTE OF
CHANIA (MAICH)

CHANIA, CRETE, GREECE

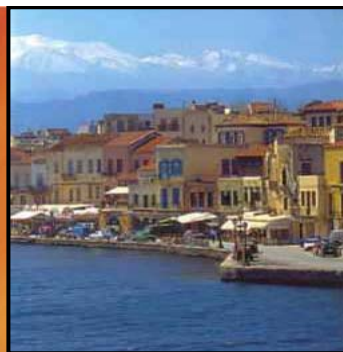

11-13 APRIL 2007

www.combustioninstitute.gr

www.ecm2007.gr

LOCATION AND TRAVEL

Chania is the second largest city of Crete and it lies along the north coast of the island. Chania's old town is considered Crete's most beautiful urban district, especially the crumbling Venetian harbour

with its 15th century lighthouse. Many of the old buildings have been restored as hotels, restaurants, shops and bars, making the old town a lively and colourful place. The climate of the city is mild and typical mediterranean. April is a particularly pleasant month with average daytime temperatures of 20°C and very little precipitation. The city has an international airport. There are several flights a day from Athens to Chania and, starting April, there are many direct charter flights to Chania from the UK, Germany, Scandinavia and other European countries. Chania is also served by the Iraklion international airport, 145 km to the east of the city. Chania can also be reached by boat from Piraeus, Athens with daily trips lasting between 6 to 9 hours.

CONFERENCE VENUE

The ECM2007 will be hosted by the **Mediterranean Agronomic Institute of Chania (MAICh)**. MAICh is situated in a picturesque, typical Mediterranean pine-tree forest setting, 3 km south-east of the city of Chania, 13 km from the international airport and 1 km from the port. Further information can be obtained from the MAICh web page: www.maich.gr

ACCOMMODATION

Accommodation will be available either on the MAICh premises or in the Chania city centre. Further information and online booking will be available on the ECM2007 web site.

TECHNICAL PROGRAM

The technical program of ECM2007 will follow the format established in previous European Combustion Meetings and will consist of invited lectures and topical reviews followed by parallel sessions of poster presentations.

PAPER SUBMISSION

Papers will be selected on the basis of a one-page abstract. For those accepted a full length paper is also required for inclusion in the ECM207 Proceedings Volume. Please note the following important dates:

Abstract Submission	1 November 2006
Acceptance Notification	1 December 2006
Full Paper Submission	1 February 2007

Instructions on abstract and paper submission will soon be available on www.combustioninstitute.gr and on the ECM2007 (www.ecm2007.gr) web site.
